MICROGYM

ECO-POWR

SportsArt ECO-POWR is our latest line of environmentally responsible cycles and ellipticals, and the first of its kind to harness the power of human energy and put it back into the grid. When plugged into a power outlet the human energy generated converts to utility-grade electricity, offsetting significant savings for the club owner.

INTEGRATED MICRO-INVERTERS

HUMAN ENERGY

REAL TIME WATT DISPLAY

INNOVATION AND TECHNOLOGY THAT HARNESSES HUMAN ENERGY.

Sportsart ECO-POWR is the pioneer in green systems that harness the power of bikes and ellipticals and puts it back into the grid. Our latest line of environmentally responsible bikes and ellipticals, ECO-POWR, has taken technology to the next level. Now the micro-inverters are housed inside the shrouds so there are no extra cords or boxes to manage.
